

Pre-Qualification Application Processing

Notifications

The Independent Evaluator sends all notifications regarding the Pre-Qualification Application by email. The email will be sent to the Representative of the Bidder and any Nominees. The Bidder may designate up to three (3) authorized individuals to be Nominees in addition to the Representative in the Fifth Item of Section 1 of the online Pre-Qualification Application.

Timing of Pre-Qualification Application Review

The Pre-Qualification Application must be submitted by 12:00 p.m. EPT on the Pre-Qualification Application Due Date, April 1, 2026.

Once a Pre-Qualification Application is submitted by a Bidder, the Independent Evaluator will close access to the online Pre-Qualification Application for that Bidder while review is on-going. Once the review is complete, the Independent Evaluator sends a notice to acknowledge receipt of the Pre-Qualification Application and to provide the results of an initial review. Such a notice will be sent by 6 PM on the business day following the business day the Pre-Qualification Application is received when the Pre-Qualification Application is received prior to 12:00 p.m. EPT on a business day prior to the Pre-Qualification Application Due Date. If a Pre-Qualification Application is received after 12:00 p.m. EPT on a business day prior to the Pre-Qualification Application Due Date, such notice will be sent by 12 PM (noon) on the second business day after the Pre-Qualification Application was received.

Acknowledgment and Review

The results of an initial review will find either: that the Pre-Qualification Application is incomplete or requires clarification; or: that the Pre-Qualification Application is complete and no further information is required.

If the Pre-Qualification Application is incomplete or requires clarification, the Independent Evaluator will send a deficiency notice to the Bidder. For a first deficiency notice:

- The Bidder will have until 12 PM (noon) on the Pre-Qualification Application Due Date, or until 6 PM on the second business day following the business day during which such a deficiency notice is sent, whichever comes later, to respond.
- Bidders must provide any additional information or clarification through the online Pre-Qualification Application or by email to PECO-SolarRFP@nera.com.
- If the Bidder does not correct or adequately explain a deficiency within the time allowed, the Pre-Qualification Application may be rejected and the Bidder may be unable to submit a Proposal.
- The time allowed for additional deficiency notices will be no longer than the timeframes provided above and may be shorter.

If the Pre-Qualification Application is complete, the Independent Evaluator sends a complete notice.

PECO Solar RFP

Notification of Pre-Qualification

Each Bidder that submits a Pre-Qualification Application will be notified by email whether the Project is pre-qualified and the Bidder may submit a Proposal for that Project by April 10, 2026 (the Notification of Pre-Qualification date).
